MUKUND SINGH BHATI

mukund.singh.bhati@gmail.com | +91 9269048587| github.com/mukundbhati | /in/mukund-singh-bhati

SUMMARY

Computer Science undergraduate with hands-on experience building AI-powered applications and full-stack software systems. Skilled in Python backend development using Flask and FastAPI, building responsive interfaces with React, and integrating large language models for intelligent applications. Experienced in designing modular architectures, implementing semantic search pipelines, and developing data-driven applications. Interested in AI systems, backend engineering, and real-world problem solving through scalable software solutions.

TECHNICAL SKILLS

Programming: Python, C++
Backend: Flask, FastAPI, REST APIs, Mongo DB
Frontend: React, HTML, CSS, JavaScript
AI Tools: Ollama, LLaMA, Sentence-BERT
Tools: Git, GitHub, Docker, Salesforce

PROJECTS

VANI – Voice Activated Neural Interface

- Developed a private voice-activated AI assistant using Python and Flask integrated with a local LLaMA model through Ollama.
- Implemented speech recognition and text-to-speech functionality for natural interaction.
- Built REST API communication pipeline for AI response generation.
- Designed modular architecture enabling future integrations and automation features.

ScanSpense – Receipt Scanner & Expense Tracker

- Built a full-stack expense tracking platform using React, Node.js, and MongoDB.
- Implemented OCR-based receipt scanning with regex data extraction.
- Added secure JWT authentication and analytics dashboards using Chart.js.

CampusMind – AI Enabled College ERP & Academic Assistant

- Developed AI-powered academic platform using React and FastAPI.
- Implemented document ingestion and semantic search using Sentence-BERT embeddings.
- Built conversational interface for querying academic resources.

EDUCATION

- **Bachelor of Technology – Computer Science & Engineering**
  JECRC University, Jaipur,Rajasthan (2022 – 2026)
- **Senior Secondary Education**
  Shri Jain Public School, Bikaner (2022)
- **Secondary Education**
  Shri Jain Public School, Bikaner (2020)

EXTRACURRICULAR ACTIVITIES

Volunteer – Aashayein Blood Donation Camp: Managed social media outreach and awareness campaigns.

Volunteer – JU Rhythm Cultural Fest: Assisted hospitality team with guest management and event coordination.

TECHNICAL INTERESTS

Artificial Intelligence Systems, Backend Engineering, AI Model Evaluation, Large Language Model Applications, Software Architecture
